

#### Account:

- As an account holder, I would like to automatically access everything I am authorized to see, so that I can use the application to a full extent.
- As an account holder, I would like the ability to change my password anytime, so that my account is always protected by a password I can remember.
- As a user, I would like to be able to login and logout, so that I can access my account.
- As a user, I would like to change my password, so that my account is safe and is protected by a password that I can remember.

#### Restaurant:

- As a restaurant manager, I would like to register with FrontDash, so that my restaurant can take customer orders from the application.
- As a restaurant manager, I would like to withdraw from FrontDash, so that my restaurant no longer takes customer orders from the application.
- As a restaurant manager, I would like to modify the restaurant's contact information, so that customers can always find the most recent contact information.
- As a restaurant employee, I would like to change the restaurant's opening hours, so that customers know when they can place an order.
- As a restaurant manager, I would like to add an employee account, so that new hire's will have access to the system.
- As a restaurant manager, I would like to deactivate an employee's account, so that they no longer have access to FrontDash when leaving the company.
- As a restaurant employee, I would like to change the menu, so that I can add or remove items that customers can order.
- As a restaurant employee, I would like to modify a menu item, so that its price and availability is always up to date.

#### Customer:

- As a customer, I want to view the restaurants in a block format with an image and a short description so I know what kind of food they serve.
- As a customer, I want to see the restaurant's extensive information on a detail page, so that I know any information that might affect my restaurant decision.
- As a customer, I want to receive an order number, so that if any complications arise my order can be uniquely identified.
- As a customer, I want to view my order as an itemized list after placing the order, so that I can easily see what I should expect to be delivered.
- ~~● As a customer, I want to see the breakdown of the bill, so that I know what specifically my money is going towards.~~
- As a customer, I want to see an order confirmation before paying, so that I can review my order to check for mistakes.
- As a customer, I want to select from a list of restaurants, so that I can order the food I'm in the mood for.
- As a customer, I want to see the restaurant's information, so that I know any information that might affect my restaurant decision.

- As a customer, I want to see the menu for the selected restaurant, so that I know what food they offer.
- As a customer, I want to see the food's details, so that I know the price and contents.
- As a customer, I want to be able to select multiple food items and quantities, so that I can customize my order to my desire.
- As a customer, I want to pay online, so that I don't have to do so when the food arrives.
- As a customer, I want to enter my address, so that my food gets delivered to the right place.
- As a customer, I want to know the estimated delivery time, so that I know when to expect my order.
- As a customer, I want to receive an order number, so that if any complications arise my order can be uniquely identified.

#### FrontDash:

- As an administrator, I want the ability to approve or disapprove a request from a restaurant, so that I can maintain an accurate number of restaurants available on FrontDash.
- As an administrator, I want the ability to create a staff account, so that I can have the necessary amount of staff accounts.
- As an administrator, I want to be able to delete a staff account so that their account will be removed when unnecessary.
- As a FrontDash staff member, I want the ability to login and logout of my account so that I do not always have to be logged into my account.
- As a FrontDash staff member, I want to be able to retrieve the first order from the order queue and enter it in the database so that the order will be available for the restaurant
- As a FrontDash staff member, I want to be able to initiate the computation of an estimated order delivery time so that the customer will know when the order will be delivered.
- As a FrontDash staff member, I want to be able to send a driver to fulfill an order so that the order will be delivered to the customer.
- As a FrontDash staff member, I want to be able to record the order status and amount from a driver after delivery to a customer so that the status and amount will be accurate in the system.
- As a FrontDash staff member, I want to be able to hire a driver, so that there will be enough for deliveries.
- As a FrontDash staff member, I want to be able to fire a driver, so that if they are not up to standard they will be removed.
