

## **CS 744 – Software Project Management**

### **Project Meeting**

Project title: Front Dash

Group name: Blue

Meeting #:6

Held on: Feb 19, 2024 at 10:00 A.M.

Location: Wittich 0103

Members of the group: Tanner Turba, Matthew Moyer, Samuel Evanson

Members attended: All

Topic(s) for discussion: Code review for user routing.

Report writer: Tanner Turba

---

#### Attendance:

All members were in attendance for this meeting.

#### Work on assigned tasks:

Tanner had presented his proposed additions to the source code for user routing based on roles. He had explained that the library we are using for authentication discourages the use of credential authentication because the writers of the library deem them as less secure, so credentials don't have out-of-the-box support for session data. Tanner had worked on configuring the project so session data will be available.

#### Current task:

Continuing with assigned sprint tasks. Not much else to report.

#### Assignment of work:

The purpose of this meeting was to serve as a formal code review for visibility and understanding of the code, so there haven't been any additional assigned tasks.

#### Next meeting and its agenda:

Progress updates and hopefully another code review.
