

CS 744 – Software Project Management

Project Meeting

Project title: Front Dash

Group name: Blue

Meeting #: 15

Held on: April 1, 2024 at 10:00 A.M.

Location: WING 218

Members of the group: Tanner Turba, Matthew Moyer, Samuel Evanson

Members attended: Tanner & Matt

Topic(s) for discussion: Discuss API issues and start presentation for demo.

Report writer: Tanner Turba

Attendance:

Tanner and Matt were in attendance for this meeting.

Work on assigned tasks:

Tanner had finished all sprint tasks, Matt had worked on his Restaurant information sprint task, and Sam was not in attendance, so N/A.

Current task:

Find solution/workaround for an API issue that Matt was experiencing. The framework that our team is using makes custom API calls a little awkward, so we spent a good chunk of this meeting trying to find a solution. We spent some time working on the presentation for the demo as well.

Assignment of work:

Tanner said he'd continue to work on the presentation and Matt would research more to figure out his API issue.

Next meeting and its agenda:

Backlog refinement and plan for sprint 5.
